SKILLS

Languages & Frameworks: React.js, TypeScript, JavaScript (ES6+), HTML5, CSS3

Styling & UI: Tailwind CSS, Bootstrap, Responsive Design, Accessibility (a11y)

Performance & architecture: React Query, Vite, Code Splitting, Lazy Loading, Memoization, Lighthouse Optimization, Component-Driven Architecture

Tools & Workflow: Git/GitHub, REST APIs, CI/CD(GitHub Action), Cross-browser Compatibility

WORK EXPERIENCE

TechnoHacks

Web Developer

Dec 2025 - jan 2026

- Designed and shipped 5+ responsive web interfaces using HTML5, CSS3, Bootstrap, and vanilla JavaScript, reducing layout inconsistencies across 3 major browsers.
- Implemented dynamic UI components with JavaScript event-driven patterns, improving interactive feature coverage by ~30%.
- Contributed 4 merged pull requests to open-source repositories; resolved critical UI bugs and improved component reusability in React codebases.
- Collaborated via Git (feature branches, PRs, code reviews), maintaining clean commit history and adhering to team coding standards.

PROJECTS

Smart Resume Analyzer [🔗](#)

[React, Vite, JavaScript, Tailwind CSS, React Query]

- Built a full-featured career platform with resume analysis, AI cover letter generation, job matching, and application tracking in a unified dashboard.
- Achieved 90+ Lighthouse score and sub-second load times via Vite optimization and code splitting.
- Reduced redundant API calls by ~40% using React Query caching and stale-while-revalidate.
- Developed responsive, accessible UI with real-time resume scoring, keyword analysis, and actionable feedback across all device sizes.

FinSight - Finance Analytics Dashboard [🔗](#)

[React, Vite, JavaScript, Tailwind CSS, Recharts]

- Built a production-grade fintech dashboard to track income, expenses, and savings trends with real-time data visualization using Recharts.
- Architected a modular, component-driven UI with KPI cards, interactive charts, and scalable layouts; reduced component re-renders via optimized state management.
- Implemented predictive metrics and interactive data filters, improving user decision-making speed and dashboard engagement.

Exam Buddy [🔗](#)

[React, Vite, JavaScript, Tailwind CSS, OpenAI API]

- Built a scalable academic platform for 1,000+ RGPV students with a searchable exam paper repository and AI-powered syllabus chatbot.
- Integrated OpenAI API for context-aware Q&A, improving accuracy and reducing search time by ~30%.
- Optimized performance with lazy loading and ensured responsive UX across devices

EDUCATION

Adina institute of science and technology

Bachelor of technology (CSE)

june 2024 - june 2028

Maharishi Vidya Mandir

PCM

(completed - 2023)

Achievements & Activities

National-level Volleyball Player: Demonstrates teamwork, discipline, and a high-performance mindset in fast-paced environments.

Active Open Source Contributor: Regularly collaborating on real-world codebases with multiple merged PRs.
